1926.

# ANNUAL REPORT, 1925.

---

*To the Chairman and Members of the  
Urban District Council of Worsborough.*

Lady and Gentlemen,

I beg to submit to you my TWENTY-THIRD ANNUAL REPORT on the Health of your District for the year ending December 31st, 1925.

From instructions received from the Ministry of Health in their Circular 648 of December 10th, 1925, this Report is to be a Survey Report.

I have the honour to be,

Your obedient Servant,

H. A. L. BANHAM,

*Medical Officer of Health.*

---

## **1. General Statistics.**

The area of the District is 3,550 acres.

The District may be described as a somewhat irregularly square-shaped hilly district, bounded on the North by the County Borough of Barnsley, on the East by Wombwell, on the South by the Urban District of Hoyland and Tankersley Rural, and on the West by Stainborough (Barnsley Rural).

The maximum altitude of the District is reached at Highstone, which is 575 feet; it falls gradually to the South to Worsbro' Bridge and Worsbro' Dale. At Worsbro' Bridge the contour line shows only 200 feet above sea level; it then rises until we get to Birdwell, still further south, when it is 472·5 feet, and Blacker on the South-East, which is 489·2 above sea level.

The District was originally called "Wircesburgh, and Wirkesburgh," and in the 16th century we find the name "Wirsburg," which, with a few other changes, give place to the present mode of spelling.

There is one large sheet of water, the Worsborough Reservoir, about 75 acres, which was constructed to supply the Dearne and Dove Canal, which commences at Worsbro' Bridge and extends eastward until it leaves our District at Swaithe. This portion of the canal has not been used for many years.

The river Dove enters our District at the extreme west, at Rockley, passing down the south side of the Reservoir to Worsbro' Mill, then taking a more tortuous course along the valley until it reaches Aldham Mill in the Wombwell District.

This is a coal-mining district. Most of the men find employment at the Barrow Colliery, which is situated in the Township, and other collieries in adjoining districts. There is a timber yard and saw mills at Worsbro' Dale.

The population is chiefly concentrated in Worsbro' Bridge, Worsbro' Dale, Ward Green, Birdwell, Blacker Hill, and Swaithe.

Population (census 1921) 11,542. The Registrar General has estimated the population as at June 30th, 1925, at 12,440, on which figure our Birth and Death Rates are calculated.

No. of Inhabited Houses.			Population.		
Year.			Year.		
1921	...	2,435	1921	...	11,542
1922	...	2,480	1922	...	12,080
1923	...	2,489	1923	...	12,280

1925	...	2,625

Rateable Value, £42,880.

Sum represented by 1d. Rate, £143.

## 2. Extracts from Vital Statistics of the Year.

### *Registrar General's Figures—*

Total Births in the District: 289 (141 males, 148 females).

Illegitimate males, 6; females, 8.

Legitimate males, 135; females, 140.

Birth Rate for the year, 23·23.

Deaths at all ages: 142 (79 males, 63 females).

Death Rate for the year, 11·41.

Deaths of Infants under 1 year of age per 1,000 births:

Males, 16; females, 11.—Total, 27.

(Illegitimate—2 males, 1 female).

Infantile Mortality Rate for the year, 96·88.

For the purpose of comparison I give below the rates for the preceding five years, both of your own and those of England and Wales:—

*England and Wales—*

	1921	1922	1923	1924	1925
Death Rate ... ..	12·1	12·9	11·6	12·2	12·2
Birth Rate ... ..	22·4	20·6	19·7	18·4	18·3
Infantile Death Rate	83·0	77·0	69·0	75·0	75·0

*Worsborough District—*

### 4. Summary of Nursing Arrangements.

#### Hospitals provided or subsidised by the Local Authority or by the County Council.

- (1) Tuberculosis. Provided by the County Council.
- (2) Maternity. Cases can be taken into the Maternity Home provided by the Borough of Barnsley.
- (3) Children. *None.*
- (4) Fever. Arrangements with Barnsley, viz., Kendray Hospital.
- (5) Small-Pox. Do. do. Lund Wood ,,
- (6) Other Hospitals, viz., Beckett Hospital, Barnsley, and the Hospitals in Leeds and Sheffield.

No Institutional provision for Unmarried Mothers, Illegitimate Infants, and Homeless Children.

#### Ambulance Facilities.

- (a) For Infectious Diseases. Satisfactory arrangements made with Barnsley to remove all cases.
- (b) For Accidents, etc., and non-infectious cases:  
Motor Ambulance provided.

### Clinics and Treatment Centres.

MATERNITY AND CHILD WELFARE CLINIC. — Held since April, 1925, in Wesleyan Schoolroom, Worsbro' Dale, on Thursday afternoons, at 3 p.m.

Consultations held during 1925	..	...	48
New Admissions	...	...	204
Do. under 12 months	...	...	126
Total Attendances	...	...	920
Seen by M.O. in charge—			
Infants	...	...	774
School Children	...	...	93
Anti-natal Mothers	...	...	12

SCHOOL CLINIC.—The following attendances were made during 1925 :—

Consultations held	...	...	86
Admissions	...	...	129
Total Attendances	...	...	616
For Ringworm	...	...	16
Impetigo	...	...	42
Eye Diseases	...	...	16
Ear Diseases	...	...	16
Minor Injuries	...	...	22
Miscellaneous	...	...	8
Attendance per Session	...	...	7.1
Do. per Child	...	...	5.1

The Health Visitor, Nurse McEvoy, who is the nurse in attendance at the Child Welfare, as usual, organised a Tea and Xmas Tree on December 22nd, 1925, when 236 mothers, who had attended the Clinic with their babies (under 1 year of age) during the previous twelve months, were entertained to tea, and each baby received a present. My thanks are due to Nurse McEvoy for the interest she takes in the Welfare, and the tact and ability displayed in carrying out her duties.

TUBERCULOSIS DISPENSARIES.—Under the control of the County Council, held in Barnsley.

VENEREAL CLINIC.—Cases attend Clinic provided by Barnsley Borough.

### PUBLIC HEALTH OFFICERS :—

Medical Officer of Health: H. A. L. BANHAM (part time).

Sanitary Inspector: T. PILKINGTON (whole time).

Health Visitor: Nurse McEvoy (also acts as School Nurse).

### PROFESSIONAL NURSING :—

(a) General—Private Association, endowed to provide a Nurse for “Necessitous Poor” for part of District only.

(b) Infectious Diseases—None.

MIDWIVES.—Controlled by County Council.

Pathological and Bacteriological Examinations are carried out by the County Council.

### List and Date of Adoptive Acts, Bye-laws, and Local Regulations in force in the District.

	ADOPTED
The Infectious Diseases Notification Act, 1889 ...	1st Nov., 1890
The Infectious Diseases Prevention Act, 1890 ...	1st Aug., 1891
The Private Street Works Act, 1892 ... ..	1st Feb., 1893
The Public Health (Amendment) Act, 1907 ...	9th Oct., 1908
Bye-laws with respect to New Streets and Buildings, Paving of Back Yards and Open Spaces	6th Oct., 1923
Bye-laws with respect to Nuisances, Slaughterhouses, and Regulations in respect to Dairies, Cowsheds, and Milkshops ... ..	17th Sep., 1900
Bye-laws with respect to Offensive Trades (Fish-and Chip Frying included) ... ..	20th Feb., 1922

### Water Supply.

The District derives its water from the Barnsley Water-works, viz., Midhope and Ingbirchworth Reservoirs, and is supplied to the District through meter.

The supply is constant and wholesome, and no complaints have been received. In no instance has any disease been traceable to the water.

Extensions of service mains have been made during the year as follows :—

Ward Green	...	...	...	715 lin. yds.	3 in.
Do.	...	...	...	160	„ 4 in.
Bank Top Housing Scheme	...	...	...	233	„ 3 in.

### Rivers and Streams.

No complaints regarding the pollution of any river or stream in the District have been received during the year.

### Drainage and Sewerage.

The District is properly drained and sewered, and the sewage is conveyed by natural gradation to Sewage Farms, one at Birdwell and the other at Worsbro' Dale.

The sewage is treated at these farms on the intermittent downward filtration system, with settling tanks and automatic sprinklers.

Extensions of sewerage have been made during the year as follows :—

Genne House Road	...	...	...	284 lin. yds.
Ward Green Housing Scheme	...	...	...	120 „
Mount Vernon and Upper Sheffield Road	...	...	...	398 „
Bank End Road	...	...	...	154 „
Bank End Housing Scheme	...	...	...	70 „
Blacker Hill Housing Scheme	...	...	...	257 „
West Street, Worsbro' Bridge	...	...	...	70 „

Developments still needed ;—Swaithes, Ship Inn Yard, Beaumont Terrace, Furnace Yard, and Highstone Fold.

Improvement of Defective Sewers :—

Canal Bank, West Street	...	117 lin yds.
-------------------------	-----	--------------

### Closest Accommodation.

No. of Privies converted into Water Closets during 1925	No. of Waste Water Closets converted into W.C.'s	No. of Additional Closets provided for Old Property	No. of Water Closets constructed for New Houses	No. of Closets in District at end of year		
				W.C.'s	Waste W.C.'s	Privies
51	12	10	78	1095	322	560

The conversion of Privies into W.C.'s is progressing favourably, and it is expected that in the course of a few years the remaining Privies will be all converted.

Also the Sanitary Dust Bin is gradually displacing the fixed Ashpit. All new houses now erected are each provided with a Dust Bin.

### Scavenging.

The Scavenging of the District is performed by the Council's own workmen, at a total cost of nearly £2,000 per annum.

The nightsoil is deposited on farm land, and the ashes and other rubbish on tips.

No complaints were received during the year.

The time has arrived when a more sanitary and more economical system of refuse disposal should be given due consideration.

The methods in vogue are the adoption of one or more of the following refuse disposal plants :—

Burning in Destructors.

Pulverising.

Salvaging.

The latter system has proved very profitable in many districts. Perhaps a combination of two systems would be more applicable to this District, as there are still a fairly large number of privy middens.

Total number of loads removed	...	...	...	7,504
Night-soil and Ashes ...	...	...	...	7,088
Night-soil deposited on farm land	...	...	...	3,828
Ashes deposited on Council's Tips	...	...	...	3,260
Bell-cart Rubbish deposited on Tips	...	...	...	416

### Nuisances under Public Health Acts.

No. of Inspections—179.	No. of Notices served by Inspector		No. of Notices complied with	No. remedied after Verbal Notice
	Informal	Statutory		
Defective W.C.'s and Drains...	22		21	
Defective Sinks or Sink Pipes	7		6	
Leaky Roofs ... ..	12		11	
Defective Spouting ... ..	4		3	
Defective Set-pots ... ..	3		3	
Defective Windows ... ..	1		1	
Defective Flues ... ..	1		1	
Nuisance from Service Water Pipe ... ..	1		1	
Dilapidated Ashpits ... ..	4	1	4	
Accumulation of Sewage ...	1		1	
Swine kept so as to be a Nuisance ... ..				1
Insanitary Yards ... ..		3	1	
Offensive Privy Middens ...		29	21	
Worn-out Dust Bin ... ..	1		1	
Overcrowding .. ...	1		1	53
Dirty Premises ... ..	17	9	26	

  

	No. of Inspections	CONDITION
No. of Bakehouses—		
On Register ... 2	8	Clean and in good structural condition
No. of Offensive Trades (Fish Frying only)—		Kept in fairly clean condition but many structurally defective
On Register ... 13	50	Kept clean and all in fairly good structural condition
No. of Slaughterhouses—		
On Register ... 11	440	Kept in clean condition
No. of Meat Shops ... 16	192	Closets re-constructed at 1, others satisfactory
No. of Factories—		
On Register ... 4	8	
No. of Workshops—		
On Register ... 14	28	Satisfactory

SMOKE ABATEMENT.—No complaints of any nuisance from smoke were made during the year.

### Schools.

There are 10 Schools in the District, 5 provided and 5 non-provided schools. They are distributed as follows :—

3 at Worsbro' Dale	2 at Blacker Hill
2 at Worsbro' Bridge	1 at Worsbro'
2 at Birdwell	

The whole are in good structural condition and are kept clean.

They are provided with the main water, and the conveniences are all on the water-carriage system.

During the year it has not been found necessary to close any of the Schools owing to any outbreak of infectious disease.

### Housing.

#### I. GENERAL HOUSING CONDITIONS.

- |     |                              |                         |     |     |     |       |
|-----|------------------------------|-------------------------|-----|-----|-----|-------|
| (1) | Number of Houses in District | ...                     | ... | ... | ... | 2,603 |
|     | Do.                          | for the Working Classes | ... | ... | ... | 2,322 |
|     | Do.                          | in course of erection   | ... | ... | ... | 92    |
- (2) Population of District (Registrar General's estimation)—12,440  
No important changes have occurred during the year,  
and none is anticipated in the near future.
- (3) Shortage of Houses (approximately)—330.

There are at present 92 Houses in course of erection, and the Council have secured land for a further 84. The number of cases of overcrowding is 130, caused, primarily, by the stoppage of building during the war.

#### 11. OVERCROWDING.

Fifty-four cases of overcrowding were remedied during the past year. There are a number of cases of families of 7 and 8 persons occupying houses with only one bedroom. (*See List.*)

#### III. FITNESS OF HOUSES.

- (1) General Standard—

The working class houses are chiefly four-roomed houses (2 up and 2 down) and five-roomed houses (3 up and 2 down), and mostly come up to the standard laid down in Vol. 1, 1919 (Housing).

- (2) General character of Defects—

Leaky roofs, defective sinks and sink pipes, defective floors and wall plaster, no through ventilation, no pantries, and damp walls.

The defects are due in some cases to bad management or supervision by owners, and also in other cases to destructive tenants. The defects such as back to back houses, certain dampness, and without pantries, are of course due to bad planning when built.

(3) General action taken as regards Unfit Houses—

Action is taken under Public Health Acts for matters relating to nuisances, such as accumulations, animals or fowls kept, dirty premises, offensive privies, defective drains, etc.

Structural defects of houses are dealt with by the Housing Acts.

No difficulty has been experienced in dealing with matters that come under Section 3 of the Housing Acts.

There has been no special method adopted for dealing with back to back houses or other types of insanitary property, and no special measures have been taken or suggested to improve management of property by owners, or the better care of property by tenants.

Houses unfit for habitation, and certain houses requiring very extensive alterations, cannot be dealt with at present on account of the inability to provide the occupiers with alternative accommodation.

Practically the whole of the houses in the district have the main water laid on, and there are no such conditions as houses without water.

The houses are provided with water-closet accommodation or a properly covered privy midden, and all refuse is removed regularly by the Council's own men and deposited on tips, the contents of privy middens being deposited on farm land.

- IV. UNHEALTHY AREAS.—There are no unhealthy areas in the District.
- V. Bye-laws relating to Houses let as Lodgings, and to Tents, Vans, etc.—No Bye-laws adopted, as there are no tents, vans, etc., in the District.
- VI. Account of any action bearing on the Public Health, not covered by the above particulars, which has been taken by the Local Authority.—No special action has been taken.

## Housing Statistics for the Year 1925.

Number of New Houses erected during the year—

(a)	Total (including numbers given separately under (b)	78
(b)	With State assistance under the Housing Acts :	
(i.)	By the Local Authority ... ..	52
(ii.)	By other bodies or persons ... ..	22

### 1.—UNFIT DWELLINGHOUSES.

#### INSPECTION.

(1)	Total number of Dwelling-houses inspected for housing defects under Public Health or Housing Acts ... ..	364
(2)	Number of Dwelling-houses which were inspected and recorded under the Housing (Inspection of District) Regulations, 1910, or the Housing Consolidated Regulations, 1925 ... ..	364
(3)	Number of Dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation ... ..	27
(4)	Number of Dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation ... ..	198

### 2.—REMEDY OF DEFECTS WITHOUT SERVICE OF FORMAL NOTICE.

Number of defective Dwelling-houses rendered fit in consequence of informal action by the Local Authority or their Officers ... ..	108
--	-----

### 3.—ACTION UNDER STATUTORY POWERS.

#### A.—Proceedings under Section 3 of the Housing Act, 1925 :

(1)	Number of Dwelling-houses in respect of which notices were served requiring repairs ... ..	80
(2)	Number of Dwelling-houses which were rendered fit after service of formal notices—	
(a)	By Owners ... ..	76
(b)	By Local Authority in default of Owners	Nil
(3)	Number of Dwelling-houses in respect of which Closing Orders became operative in pursuance of declarations by Owners of intention to close ... ..	Nil

*B.*—Proceedings under Public Health Acts :

(1)	Number of Dwelling-houses in respect of which notices were served requiring defects to be remedied	...	...	...	...	...	...	60
(2)	Number of Dwelling-houses in which defects were remedied after service of formal notices—							
(a)	By Owners	...	...	...	...	...	...	50
(b)	By Local Authority in default of Owners...							<i>Nil</i>

*C.*—Proceedings under Sections 11, 14, and 15 of the Housing Act, 1925 :

(1)	Number of representations made with a view to the making of Closing Orders	...	...	...	...	1
(2)	Number of Dwelling-houses in respect of which Closing Orders were made	...	...	...	...	1
(3)	Number of Dwelling-houses in respect of which Closing Orders were determined, the Dwelling-houses having been rendered fit	...	...	...	...	<i>Nil</i>
(4)	Number of Dwelling-houses in respect of which Demolition Orders were made	...	...	...	...	<i>Nil</i>
(5)	Number of Dwellinghouses demolished in pursuance of Demolition Orders	...	...	...	...	<i>Nil</i>

**Overcrowding of Houses and Estimate of  
Number of Houses required.**

The number of unremedied cases of overcrowding is 130. These are distributed as follows:—

Worsbro' Bridge (including Highstone Fold)	...	38
Worsbro' Dale	...	64
Birdwell	...	14
Blacker Hill ..	...	14
		<hr/>
		130
		<hr/>

Included in the above are—

9 cases of 5 persons	}	Occupying Houses with only One Bedroom.
16 „ 6 „		
8 „ 7 „		
8 „ 8 „		
1 „ 9 „		

The number of cases of overcrowding remedied during the year was 54.

The number of houses not overcrowded, but occupied by two families, is 85 ; distributed as follows :—

Worsbro' Bridge ...	...	26
Worsbro' Dale ...	...	23
Birdwell ...	...	29
Blacker Hill ...	...	7
		<u>85</u>

The number of houses unfit for habitation is 100 ; distributed as follows :—

Worsbro' Bridge (including Highstone Fold)...	38
Worsbro' Dale ... ..	36
Birdwell ... ..	12
Blacker Hill ... ..	14
Total ...	<u>100</u>

The shortage of houses in the District is still the barrier preventing the Council from taking any action regarding these unfit houses.

**Estimate of the number of Houses required to meet the present shortage and to replace Unfit Houses.**

Worsbro' Bridge ...	100
Worsbro' Dale ...	140
Birdwell ...	60
Blacker Hill ...	30
Total ...	<u>330</u>

**OBSERVATION.**—It would appear to be very advisable if the Council would provide about 50 smaller type of houses than those they have already erected and in course of erection, to serve for families who are unable to pay the rents of the latter houses, as on account of the high rents many families are compelled at present to live in shockingly overcrowded conditions in two-roomed houses, the majority of which are unfit for human habitation.

**Milk Supply.**

There are 27 milk retailers (who are also cowkeepers) on the register, and 10 milk retailers only.

The number of cowsheds in the District is 41, and 125 inspections have been made.

The structural condition of the cowsheds generally is fairly good. A few require alterations, and these are receiving attention.

The number of cows kept in the district is 218, and these are examined twice each year by a veterinary inspector.

Two samples of milk were taken for bacteriological examination from cows suspected of suffering from tuberculosis of the udder. One sample was certified to be tubercular, and the cow from which the sample was taken was slaughtered and destroyed, no part of the carcass being fit for human food.

No complaints of the quality of milk have been received. Three samples were taken for adulteration, but all proved genuine.

No licenses have been granted for the sale of milk under special designations.

### Meat Inspection.

Since the coming into force of the Public Health Meat Regulations, 1924, on the 1st April last, the following carcasses have been inspected:—

Bullocks	...	98	Calves	...	32
Heifers	...	52	Sheep	...	141
Cows...	...	265	Pigs ...	...	221

CONDEMNED.—58 Sets of Lights, 35 Livers, 4 Kidneys, 1 Cow's Head, 1 Shoulder of Cow, and 1 whole carcass of Cow.

The whole of the Lights condemned were on account of being affected with Tuberculosis, and were mainly those of cows, the bullocks usually being found free of the disease.

The new regulations have been the means of bringing about a better standard of cleanliness in both the handling of meat and the condition of meat stores in the District. Also the general quality of meat has improved, as owing to increased inspection, butchers are now wary in buying ill-conditioned cheap cattle.

The regulations have been carried out very satisfactorily by the butchers, both with regard to giving notice of slaughter and observing the rules as to cleanliness.

Arrangements have been made with an adjoining Council to destroy any condemned carcasses in their destructor.

There are no meat markets held in the District, either retail or wholesale. The number of meat shops is 15.

### Slaughterhouses.

				In January, 1925	In December, 1925
		In 1920			
Registered	...	4	...	2	2
Licensed	...	8	...	9	9

### Sale of Food and Drugs Acts.

No samples of foods have been taken under the Acts, excepting the three samples of milk mentioned under the heading of Milk Supply.

### Milk and Cream Regulations, 1912 and 1917.

No action has been taken under these Regulations.

## **Factory and Workshops Act, 1901.**

On the Register there are 4 Factories, 2 Work-Places, and 12 Workshops (including 2 Bakehouses).

The general cleanliness and sanitary condition are satisfactory.

The closets at one Factory (Timber Works) have been repaired.

No list of Outworkers has been received.

The following are the different trades carried on :—

### **Factories.**

1 Gas Works	1 Joiner's Works
1 Timber Works	1 Gas Purification Works

### **Work-Places.**

- 1 Stone Quarry
- 1 Scrap Iron Yard

### **Workshops.**

- 2 Joiners
- 2 Blacksmiths
- 3 Boot Repairers
- 1 Plumber
- 1 Motor Garage
- 1 Sweet Manufacturer
- 2 Bakers
